Trouble Logging In?

Verify these things.

1. Verify the company and the email you're using to log in to Swift.
2. Confirm with your company's security admin that you've been granted permission to Swift.
3. Have you logged in to the legacy ATLAS app through the Magellan Customer Portal in the past 15 months?
 - a. If yes, see best practices section.
 - b. If no, you'll have to have access to the ATLAS database first.
4. What browser are you using to log in to Swift?

Please use Chrome. Try an incognito window and type in <https://swift.magellanlp.com>
5. Still having issues? Email swiftloginhelp@magellanlp.com. See Best Practices section below for additional suggestions.

Swift Feature Overview

Accessing Swift Best Practices

Please use Chrome for best experience.

- Type in full URL, including <https://>
- Do not access from saved bookmark

The Current Reporting App

1. These screens are from our Reporting App within the Customer Portal, which is separate from legacy ATLAS. This means, the Reporting App and Customer Portal is not going anywhere with sunset of ATLAS.
2. Swift is accessible via <https://swift.magellanlp.com> and is a completely different UI from the reporting app and customer portal.
